INDEPENDENT AUDITORS' REPORT

Board of Trustees of the
Oklahoma Law Enforcement Retirement System

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the Oklahoma Law Enforcement Retirement Plan (the "Plan"), administered by the Oklahoma Law Enforcement Retirement System, which is a part of the State of Oklahoma financial reporting entity, which comprise the statements of fiduciary net position (pensions and other postemployment benefits other than pensions (OPEB)) as of June 30, 2024 and 2023, and the related statements of changes in fiduciary net position (pensions and OPEB) for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position (pensions and OPEB) of the Plan as of June 30, 2024 and 2023, and the changes in fiduciary net position (pensions and OPEB) for the years then ended in accordance with accounting principles generally accepted in the United States.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Required Supplementary Information

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages I-1 through I-7 and the schedule of changes in employer agencies' net pension liability, the schedule of employer agencies' net pension liability, the schedule of pension contributions from employer agencies and other contributing entities, the schedule of pension investment returns, the related notes to required pension supplementary information, the schedule of changes in employer agencies' net OPEB liability, the schedule of employer agencies' net OPEB liability, the schedule of OPEB contributions from employer agencies and other contributing entities, the schedule of OPEB investment returns, and the related notes to required OPEB supplementary information on pages 60 through 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 16, 2024, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

DISCUSSION OF THE BASIC FINANCIAL STATEMENTS

This following discussion and analysis is intended to serve as an introduction to the System's basic financial statements. The System's basic financial statements are comprised of 1) the statements of fiduciary net position, pensions and OPEB; 2) the statements of changes in fiduciary net position, pensions and OPEB; and 3) notes to basic financial statements. This report also contains required supplementary information. The System is a component unit of the State of Oklahoma and together with other similar funds comprise the fiduciary pension trust funds of the State of Oklahoma. The financial statements are presented using the economic measurement focus and the accrual basis of accounting. The System's statements offer short-term and long-term financial information about the activities and operations of the System. These statements are presented in a manner similar to those of a private business.

The statements of fiduciary net position represent the fair value of the System's assets as of the end of the fiscal year. The difference between assets and liabilities, called "fiduciary net position," represents the value of assets held in trust for future benefit payments. Over time, increases and decreases in the System's net position can serve as an indicator of whether the financial position of the System is improving or declining.

The statements of changes in fiduciary net position are presented in order to show the changes in net position during the year. The activity primarily consists of contributions to the System, unrealized and realized gains and losses on investments, investment income, benefits paid, and investment and administrative expenses.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

ANALYSIS OF THE OVERALL FINANCIAL NET POSITION AND THE CHANGES IN NET POSITION

Funding for the System is derived primarily from contributions from employer agencies and the System's members, as well as from funds received from motor license agents for the System's share of fees, taxes, and penalties from the State of Oklahoma Insurance Department for the System's share of insurance premium taxes, and from net investment income generated on assets held. In total, contributions increased during fiscal year 2024 compared to 2023 primarily due to an increase in insurance premium tax. In the prior period, contributions increased during fiscal year 2023 compared to 2022 primarily due to an increase in salaries. The System received 5.25% of total insurance premium tax collected for both the years ended June 30, 2024 and 2023.

The System's net yield on average assets was approximately 9% for the fiscal year ended June 30, 2024. Net investment income earnings increased from \$68 million for the fiscal year ended June 30, 2023, to \$89 million for the fiscal year ended June 30, 2024, as a result of good investment returns due to favorable market conditions. As the System accounts for its investments at fair value, rises and declines in the prices of stocks and bonds have a direct effect and impact on the net position and changes in net position of the System. The System's net yield on its average assets and the yield for the S&P 500 were as follows for the years ended June 30:

	<u>2024</u>	<u>2023</u>	<u>2022</u>
System	9%	7%	(10)%
S&P 500	25%	20%	(11)%

Benefit expenses, including refunds, increased during the year by approximately 2% in 2024 and 22% in 2023. Health insurance payments increased by less than 1% during fiscal year 2024 and increased by 1% during fiscal year 2023. During fiscal year 2024, deferred option benefits decreased approximately 20% compared to 2023 due to fewer retirements and more retirees with less than 25 years of service. During fiscal year 2023, deferred option benefits decreased approximately 36% compared to 2022 due to less retirees. In 2022, there was a mass retirement. The majority of new retirees had over 25 years in the System.

During fiscal year 2024, total administrative expenses increased approximately 9% due to legal fees and new IT upgrades to our server room. During fiscal year 2023, total administrative expenses increased approximately 15% due to more legal and consulting fees.

The overall fiduciary net position increased for the fiscal years ended June 30, 2024 and 2023, principally due to increased investment returns in a good market; and decreased for the fiscal year ended June 30, 2022, principally due to decreased investment returns in a poor financial market.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

DESCRIPTION OF CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS THAT ARE EXPECTED TO HAVE A SIGNIFICANT EFFECT ON THE NET POSITION OR CHANGES IN NET POSITION

While the System is directly impacted by the overall stock market changes, investments are made based on the expected long-term performance and in the best interest of the members of the System. With over \$1.1 billion of total assets and a wide range of diversity of investments, the System has the financial resources to maintain its current investment strategies, while continuing to review for other investment options to benefit its members.

Presently, the System receives 5.25% of total taxes collected on insurance premiums. This rate will remain at 5.25% through fiscal year 2027 before again setting it at 5% for fiscal year 2028 and beyond. The System received insurance premium taxes of approximately \$20 million, \$16 million, and \$14 million for the years ended June 30, 2024, 2023, and 2022, respectively.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the System's finances for all those with an interest. OKLAHOMA LAW ENFORCEMENT RETIREMENT PLAN
Administered by
OKLAHOMA LAW ENFORCEMENT RETIREMENT SYSTEM

NOTES TO FINANCIAL STATEMENTS

June 30, 2024 and 2023

(1) NATURE OF OPERATIONS

The Oklahoma Law Enforcement Retirement System (the “System”) was established July 1, 1947, for the purpose of providing retirement allowances and other benefits for qualified law enforcement officers as defined by Oklahoma statutes. The System is the administrator of a single-employer, cost-sharing defined benefit pension plan that provides participants with retirement, death, and disability benefits, a Deferred Option Plan (the “Deferred Option”), and supplemental health benefits, all established by the State of Oklahoma. The supplemental health benefits are considered other postemployment benefits other than pensions (OPEB). As such, the System is also the administrator of a single-employer, cost-sharing defined benefit OPEB plan. For financial reporting purposes, the pension and the OPEB components of the Plan are reported separately. The System is part of the State of Oklahoma financial reporting entity and is included in the State of Oklahoma’s financial reports as a pension and OPEB trust fund. Currently, agencies and/or departments who are members of the System are the Oklahoma Highway Patrol and Capitol Patrol of the Department of Public Safety (DPS), the Oklahoma State Bureau of Investigation, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Alcoholic Beverage Law Enforcement Commission, certain members of the Grand River Dam Authority, certain members of the DPS Communications Division, DPS Waterways Lake Patrol Division, park rangers, park managers, and park supervisors of the Oklahoma Tourism and Recreation Department, inspectors of the Oklahoma State Board of Pharmacy, Oklahoma University Health Sciences Center police officers, and Oklahoma University and Oklahoma State University campus police officers.

While all members participate in the pension plan, presently only six are participating in the OPEB plan:

- Oklahoma Department of Public Safety
- Oklahoma State Bureau of Investigation
- Alcoholic Beverage Law Enforcement Commission
- Oklahoma State Bureau of Narcotics and Dangerous Drugs Control
- Oklahoma State Board of Pharmacy
- Oklahoma Tourism and Recreation Department

The System, considered a single employer pension and OPEB plan, is a part of the State of Oklahoma financial reporting entity, which is combined with other similar funds to comprise the fiduciary pension and OPEB trust funds of the State of Oklahoma.

See Independent Auditors’ Report.

(1) NATURE OF OPERATIONS, CONTINUED

The Oklahoma Law Enforcement Retirement System Board of Trustees (the “Board”) is responsible for the operation, administration, and management of the System. The Board also determines the general investment policy of the System’s assets. The Board is composed of 13 members consisting of: the Commissioner of Public Safety or designee; the Director of the Office of Management and Enterprise Services or designee; three (3) members to be appointed by the Governor, one of whom shall be a retired member of the System; one (1) member to be appointed by the Speaker of the House of Representatives; one (1) member to be appointed by the President Pro Tempore of the Senate; two (2) members of the Highway Patrol Division and one (1) member of the Communications Section of the Oklahoma Highway Patrol; one (1) member from the Oklahoma State Bureau of Investigation; one (1) member of the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control; and one (1) member of the Oklahoma Alcoholic Beverage Law Enforcement Commission, elected by and from the membership of the System. The appointees and office holders or designees all serve a 4-year term, with the governor appointee’s term being coterminous with that office.

The System’s participants at June 30 consisted of the following:

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Oklahoma Law Enforcement Retirement Plan (the “Plan”).

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting under which expenses are recorded when the liability is incurred, revenues are recorded in the accounting period in which they are earned and become measurable, and investment purchases and sales are recorded as of their trade dates. Member and employer contributions are established by statute as a percentage of salaries and are recognized in the period in which employees’ salaries are earned. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. The financial statements of the pension portion of the Plan are in conformity with provisions of Governmental Accounting Standards Board Statement No. 67, *Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25* (GASB 67).

The financial statements for the OPEB portion of the Plan are in conformity with provisions of GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* (GASB 74).

The Plan is administered by the System, a part of the State of Oklahoma financial reporting entity, which together with other similar pension, OPEB, and retirement funds comprise the fiduciary pension trust funds of the State of Oklahoma. Administrative expenses are paid with the funds provided by operations of the Plan.

Recent Accounting Pronouncements

In April 2022, GASB issued Statement No. 99, *Omnibus 2022* (GASB 99). GASB 99 is a technical omnibus statement that addresses issues or concerns from previous statements that were discovered during implementation and application of those statements. GASB 99 covers several topics, including but not limited to, financial guarantees, derivatives, leases, non-monetary transactions, future revenue pledges, and terminology updates. The Plan adopted the sections that were effective for the June 30, 2022, and June 30, 2023, reporting years. The remaining sections were adopted by the Plan for the June 30, 2024, reporting year, as required by GASB 99. GASB 99 did not have a significant impact on the Plan’s financial statements.

In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections* (GASB 100). GASB 100 prescribes accounting and financial reporting for accounting changes and error corrections to the financial statements. GASB 100 defines what constitutes an accounting change versus a change in accounting principle or error correction and outlines the appropriate note disclosures in each circumstance. The Plan adopted GASB 100 on July 1, 2023, for the June 30, 2024, reporting year. GASB 100 did not significantly impact the Plan’s financial statements.

Recent Accounting Pronouncements, Continued

In June 2022, GASB issued Statement No. 101, *Compensated Absences* (GASB 101). GASB 101 outlines the definition of compensated absences and sets forth the accounting and financial reporting for compensated absence liabilities. GASB 101 outlines that leave accrued should be measured using the employee's pay rate at the financial statement date and that certain salary related payments, such as Social Security and Medicare, should be included in such measurement. The Plan adopted GASB 101 on July 1, 2024, for the June 30, 2025, reporting year. The Plan does not expect GASB 101 to significantly impact the financial statements.

In December 2023, GASB issued Statement No. 102, *Certain Risk Disclosures* (GASB 102). GASB 102 defines circumstances where a government might have a concentration, or lack of diversity related to significant inflows or outflows of resources, or a constraint, where a limitation is imposed on a government by an external party or the highest level of decision-making authority. GASB 102 provides for how to determine if such conditions exist and if so, the appropriate disclosures required. The Plan adopted GASB 102 on July 1, 2024, for the June 30, 2025, reporting year. The Plan does not expect GASB 102 to have a significant impact on the financial statements.

In April, 2024, GASB issued Statement No. 103, *Financial Reporting Model Improvements* (GASB 103). This statement improves key components of the governmental financial reporting model to enhance effectiveness and to address certain application issues. GASB 103 prescribes changes to the MD&A, describes unusual or infrequent items, and addresses presentation issues for proprietary funds, major component units, and budgetary comparison presentations. The Plan will adopt GASB 103 on July 1, 2025, for the June 30, 2026, reporting year. The Plan does not expect GASB 103 to significantly impact the financial statements.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States requires management of the Plan to make significant estimates and assumptions that affect the reported amounts of net position restricted for pensions and OPEB at the date of the financial statements and the actuarial information in Exhibits I through X included in the required supplementary information as of the benefit information date, the changes in the Plan's net position during the reporting period, and when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

See Independent Auditors' Report.

OKLAHOMA LAW ENFORCEMENT RETIREMENT PLAN

OKLAHOMA LAW ENFORCEMENT RETIREMENT SYSTEM

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Risks and Uncertainties

Contributions to the Plan and the actuarial information in Exhibits I through X included in the required supplementary information are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions may occur in the near-term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Plan Contributions

Contributions to the Plan are recognized when due pursuant to formal commitments, as well as statutory or contractual requirements.

Plan Benefit Payments and Refunds

Benefit payments and refunds of the Plan are recognized when due and payable in accordance with the terms of the Plan.

Receivables

At June 30, 2024 and 2023, the Plan had no long-term receivables. All the receivables reflected in the statements of fiduciary net position are expected to be received and available for use by the Plan in its operations. Also, no allowance for any uncollectible portions is considered necessary.

Investments

Management of the Plan is authorized to invest in eligible investments as approved by the Board as set forth in its investment policy. The Board reviews and updates the plan investment policy at least annually, making changes as deemed necessary to achieve policy goals. An investment policy change can be made any time the need should arise, at the discretion of the Board. As of June 30, 2024 and 2023, approximately \$3,550,000 and \$2,926,000, respectively, of investments were allocated to the OPEB portion of the Plan.

Investment Allocation Policy—The Board’s investment asset allocation policy will currently maintain approximately 62.50% of assets in equity instruments, including public large and small cap equity, international developed equity, global long-short hedge, emerging markets, and private equity strategies; approximately 25% of assets in fixed income, to include core bonds, global, and multisector/core plus bonds; and 12.50% of assets in real assets, to include core real estate and commodities.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investments, Continued

Significant Investment Policy Changes—During the years ended June 30, 2024, the Board voted to change the investment policy targets. There were no significant policy changes in 2023.

Rate of Return—For the years ended June 30, 2024 and 2023, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 8.23% and 6.41%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Method Used to Value Investments—The Plan holds investments that are measured and reported at fair value on a recurring basis. Accounting principles generally accepted in the United States establish a fair value hierarchy for the determination and measurement of fair value. This hierarchy is based on the type of valuation inputs needed to measure the fair value of an asset. The hierarchy generally is as follows:

Level 1—Unadjusted quoted prices in active markets for identical assets.

Level 2—Quoted prices for similar assets, or inputs that are observable or other forms of market corroborated inputs.

Level 3—Pricing based on best available information, including primarily unobservable inputs and assumptions market participants would use in pricing the asset.

In addition to the above three levels, if an investment does not have a readily determined fair value, the investment can be measured using net asset value (NAV) per share (or its equivalent). Investments valued at NAV are categorized as NAV and not listed as Level 1, 2, or 3. Fair values of investments measured by fair value level are presented in Note 4.

Short-term investments include an investment fund composed of an investment in units of a commingled trust fund of the Plan's custodial agent (which is valued at amortized cost, which approximates fair value), commercial paper, treasury bills, and U.S. government agency securities. Active manager accounts holding debt and equity securities are reported at fair value, as determined by the Plan's custodial agent, using pricing services or prices quoted by independent brokers based on the latest reported sales prices in active markets, and at current exchange rates for securities traded on national or international exchanges. The fair value of the pro rata share of units owned by the Plan in equity index and commingled trust funds is determined by the respective fund trustee or manager based on quoted sales prices of the underlying securities. The fair values of hedge fund and private equity investments are priced by each respective manager using a combination of observable and unobservable inputs. The fair value of the real estate is determined from independent appraisals and discounted income approaches. Investments which do not have an established market are reported at estimated fair value based on primarily unobservable inputs.

See Independent Auditors' Report.

OKLAHOMA LAW ENFORCEMENT RETIREMENT SYSTEM

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investments, Continued

Net investment income includes net appreciation in the fair value of investments, interest income, dividend income, investment income from real estate, securities lending income and expenses, and investment expenses, which include investment management and custodial fees and all other significant investment-related costs. Foreign currency translation gains and losses are reflected in the net appreciation (depreciation) in the fair value of investments. Investment income from real estate includes the Plan's share of income from operations, net appreciation in the fair value of the underlying real estate properties, and the Plan's real estate investment management fees. The fair values of the limited partnerships are determined by managers of the partnerships based on the values of the underlying assets.

The Plan's international investment managers enter into forward foreign exchange contracts to protect against fluctuation in exchange rates between the trade date and the settlement date of foreign investment transactions. The gains and losses on these contracts are included in income in the period in which the exchange rates change.

The Plan may invest in various traditional financial instruments that fall under the broad definition of derivatives. The Plan's derivatives may include collateralized mortgage obligations, convertible stocks and bonds, and variable rate instruments. These investments do not increase investment risk beyond allowable limits specified in the Plan's investment policy.

The Plan's investment policy provides for investments in any combination of stocks, bonds, fixed-income securities, and other investment securities, along with investments in commingled, mutual, and index funds. Investment securities and investment securities underlying commingled or mutual fund investments are exposed to various risks, such as interest rate and market and credit risks. Due to the risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term, and such changes could materially affect the amounts reported in the statements of fiduciary net position.

The investment policy limits the concentration of each portfolio manager. Except as noted below, no investment with a single firm exceeds 5% of the Plan's net fiduciary position.

The Plan invests in domestic equity index funds, domestic equity commingled trust funds, and international equity funds. The Plan shares the risk of loss in these funds with other participants in proportion to its respective investment. Because the Plan does not own any specific identifiable investment securities of these funds, the market risk associated with any derivative investments held in these funds is not apparent. The degree of market risk depends on the underlying portfolios of the funds, which were selected by the Plan in accordance with its investment policy guidelines, including risk assessment. The international funds invest primarily in equity securities of entities outside the United States and may enter into forward contracts to purchase or sell securities at specified dates in the future at a guaranteed price in a foreign currency to protect against fluctuations in exchange rates of foreign currency.

Repurchase/Reverse Repurchase Agreement

The Plan has a master repurchase/reverse repurchase agreement. Under the agreement, the Plan may enter into a purchase/sale of a security with a simultaneous agreement to resell/repurchase the security at a specified future date and price. The Plan did not enter into any transactions under this agreement during fiscal year 2024 or 2023.

Capital Assets

Capital assets, which consist of furniture and computer equipment, are stated at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful life of the related asset, primarily 5–7 years. Certain software purchases carry an estimated useful life of 20 years.

Income Taxes

The Plan is exempt from federal and state income taxes.

Plan Termination

In the event the Plan terminates, the Oklahoma Statutes contain no provision for the order of distribution of the net position of the Plan. Plan termination would take an act of the Oklahoma State Legislature, at which time the order of distribution of the Plan's fiduciary net position would be addressed.

Administrative Items

Operating Leases

The Plan has no capital or operating lease commitments that have terms greater than 1 year. The Plan has an operating lease which ends annually as of June 30. The present lease has been renewed for the period July 1, 2024, through June 30, 2025. Total lease expense was approximately \$46,000 for each of the fiscal years ended 2024 and 2023.

Compensated Absences

Employees of the System earn annual vacation leave at the rate of 10 hours per month for up to 5 years of service, 12 hours per month for service of 5 to 10 years, 13.3 hours per month for service of 10 to 20 years, and 16.7 hours per month for over 20 years of service. Unused annual leave may be accumulated to a maximum of 640 hours. All accrued leave is payable upon termination, resignation, retirement, or death.

Retirement Expense

Employees of the System are eligible to participate in the Oklahoma Public Employees Retirement Plan, which is administered by the Oklahoma Public Employees Retirement System (OPERS). OPERS is a multiple-employer, cost-sharing public retirement defined benefit pension plan. OPERS provides retirement, disability, and death benefits to its plan members and beneficiaries. OPERS issues a publicly available financial report which includes financial statements and required supplementary information for OPERS. That report may be obtained by writing to the Oklahoma Public Employees Retirement System, 5400 N. Grand Blvd., Suite 400, Oklahoma City, OK 73112-5625.

Defined Benefit Plan

Employees of the System are required to contribute 3.5% of their annual covered salary. The System is required to contribute at an actuarially determined rate, which was 16.5% of annual covered payroll for each of the years ended June 30, 2024, 2023, and 2022, respectively. During the years ended June 30, 2024, 2023, and 2022, a total of \$95,459, \$105,285, and \$78,432, respectively, was paid to OPERS. The System's and the employees' portions of those amounts were as follows:

	<u>2024</u>	<u>2023</u>	<u>2022</u>
System portion	\$ 77,211	85,732	63,720

Defined Benefit Plan, Continued

The Plan adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27* (GASB 68), as of July 1, 2014, as it applies to its participation in OPERS. The effects upon the financial statements of the Plan as a result of the adoption of GASB 68 are considered immaterial.

The Plan adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (GASB 75), as of July 1, 2017, as it applies to its participation in OPERS, OPEB, and Implicit Rate Subsidy. The effects on the financial statements of the Plan as a result of the adoption of GASB 75 are considered immaterial.

Effective November 1, 2015, OPERS established the Pathfinder Defined Contribution Plan (“Pathfinder”), a mandatory defined contribution plan for eligible State employees who first become employed by a participating employer on or after November 1, 2015, and have no prior participation in OPERS. Under Pathfinder, members will choose a contribution rate which will be matched by their employer up to 7%. All State employers with Pathfinder participants contribute 16.50% of salary, with contributions in excess of the matched amount going into the Defined Benefit Plan, as required by Statute. During the years ended June 30, 2024 and 2023, a total of \$26,341 and \$23,663, respectively, was paid to OPERS, representing 100% of the required contributions. The System’s and the employees’ contributions to Pathfinder were as follows:

	<u>2024</u>	<u>2023</u>
System portion	\$ 12,825	11,560
Employee portion	<u>13,516</u>	<u>12,103</u>

Risk Management

The Risk Management Division of the Department of Central Services (the “Division”) is empowered by the authority of Title 74 O.S. Supp. 1993, Section 85.34 et seq. The Division is responsible for the acquisition and administration of all insurance purchased by the State of Oklahoma or administration of any self-insurance plans and programs adopted for use by the State of Oklahoma for certain organizations and bodies outside of state government, at the sole expense of such organizations and bodies.

Risk Management, Continued

The Division is authorized to settle claims of the State of Oklahoma and shall govern the dispensation and/or settlement of claims against a political subdivision. In no event shall self-insurance coverage provided by the State of Oklahoma, an agency, or other covered entity exceed the limitations on the maximum dollar amount of liability specified by the Oklahoma Government Tort Claims Act, as provided by Title 51 O.S. Supp. 1988, Section 154. The Division oversees the collection of liability claims owed to the State of Oklahoma incurred as the result of a loss through the wrongful or negligent act of a private person or other entity.

The Division is also charged with the responsibility to immediately notify the attorney general of any claims against the State of Oklahoma presented to the Division. The Division purchases insurance policies through third-party insurance carriers that ultimately inherit the risk of loss. The Division annually assesses each state agency, including the System, their pro rata share of the premiums purchased. The System has no obligations to any claims submitted against the System.

Date of Review of Subsequent Events

The Plan has evaluated subsequent events through October 16, 2024, the date which the financial statements were available to be issued, and determined that no significant subsequent events have occurred which require adjustment to or disclosure in the financial statements.

(3) DESCRIPTION OF THE PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Oklahoma Statutes for more complete information.

General

The Plan is a single-employer, cost-sharing defined benefit pension plan covering members who have actively participated in being a qualified law enforcement officer as defined by the Oklahoma Statutes or participated in a related agency.

The Plan also provides OPEB, as it provides certain retirees with health insurance premiums of up to \$105 per month for members receiving retirement benefits. As such, the Plan is also considered a single-employer, cost-sharing defined benefit OPEB plan.

(3) DESCRIPTION OF THE PLAN, CONTINUED

Contributions

Contributions to the Plan are generated from established employer and employee contribution rates, and certain revenues are dedicated by the Oklahoma State Legislature and are not based on an actuarially calculated contribution amount. A suggested minimum required contribution from the State of Oklahoma is computed annually by an actuary hired by the State of Oklahoma. However, funding by the State of Oklahoma to the Plan is based on statutorily determined amounts rather than the actuarial calculations of the amount required to fund the Plan.

Presently, the Plan receives contributions from state agencies and members of 11% and 8%, respectively, of the actual paid base salary of each member. Prior to November 1, 2012, the state agencies' contribution rate was 10%. The Plan also receives 1.2% of all fees, taxes, and penalties collected by motor license agents after approximately the first 5%. Additional funds are also provided to the Plan by the State of Oklahoma through an allocation of 5% of the tax on premiums collected by insurance companies operating in Oklahoma and by the net investment income generated on assets held by the Plan. The Plan is responsible for paying administrative costs. Administrative costs of the Plan are paid by using the earnings from the invested assets of the Plan.

Contributions for the OPEB portion of the Plan are from employer contributions. For each of the years ended June 30, 2024 and 2023, an additional \$430,000 of contributions were allocated to fund the OPEB portion of the Plan.

Benefits—Pensions

In general, the Plan provides defined retirement benefits based on members' final average compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon death of eligible members. Retirement provisions are as follows:

- The normal retirement date when a member is eligible to receive retirement benefits is when the member completes 20 years of service or reaches age 62 with at least 10 years of service. Members become vested upon completing 10 years of credited service as a contributing member of the Plan. No vesting occurs prior to completing 10 years of credited service. Members' contributions are refundable, without interest, upon termination prior to normal retirement. Members who have completed 10 years of credited service may elect a vested benefit in lieu of having their accumulated contributions refunded. If the vested benefit is elected, the member is entitled to a monthly retirement benefit commencing on the member's normal retirement date as if the member's employment continued uninterrupted, based on the actual completed years and months of service.

Benefits—Pensions, Continued

- Monthly retirement benefits are calculated at 2.5% of the highest 30 consecutive months of actual paid base salary multiplied by the years and complete months of credited service. Only salaries on which required contributions have been made are used in computing the final average salary. House Bill 2212, which was effective as of July 1, 2002, redefined final average earnings to be the greater of (i) the highest consecutive 30 months of actual earnings and (ii) the top base pay paid to active members. In accordance with House Bill 1383, for participants, other than DPS and Oklahoma State Bureau of Investigation participants, hired on or after May 22, 2013, the top base pay paid to active members will no longer be used in determining the member's final retirement benefit. This applies to DPS and Oklahoma State Bureau of Investigation participants hired on or after November 1, 2012.
- Members who became disabled prior to July 1, 2000, prior to the member's normal retirement date and by direct reason of the performance of the member's duties as an officer, receive a monthly benefit equal to the greater of 50% of the average of the highest 30 consecutive complete months of actual paid base salary or 2.5% of the average of the highest 30 consecutive complete months of actual paid base salary multiplied by the number of years and complete months of the member's credited service. Effective July 1, 2000, Senate Bill 994 provides that the monthly benefit will be equal to 2.5% multiplied by the greater of 20 years of service or the actual number of years of service performed by the member if the member had performed 20 or more years of service, multiplied by final average salary. Senate Bill 994 provides that the final average salary for a member who performed less than 20 years of service prior to disability shall be computed assuming that the member was paid the highest salary allowable pursuant to the law in effect at the time of the member's disability based on 20 years of service and with an assumption that the member was eligible for any and all increases in pay based upon rank during the entire period. The final average salary for a member who had performed 20 or more years of service prior to disability shall be equal to the member's actual final average salary.
- Members who became disabled prior to the member's normal retirement date, but after completing 3 years of vesting service and not by reason of the performance of the member's duties as an officer or as a result of the member's willful negligence, receive a monthly benefit equal to 2.5% of the average of the highest 30 consecutive complete months of actual paid base salary multiplied by the number of years and complete months of the member's credited service.
- Survivor's benefits are payable in full to the participant's beneficiary upon the death of a retired participant. The beneficiary of any active participant killed in the line of duty is also entitled to a pension benefit and, if applicable, each child is entitled to receive \$400 per month until reaching age 18 or 22, providing the child is a full-time student. A \$5,000 death benefit is also paid, in addition to any survivor's pension benefits from the Plan, to the participant's beneficiary or estate for those active or retired members who died after July 1, 1999.

- The Deferred Option allows members who have 20 or more years of service to defer terminating employment and drawing retirement benefits for a period not to exceed 5 years. Under the Deferred Option, retirement benefits are calculated based on compensation and service at the time of election and a separate account is set-up for each member. During the participation period, the member's retirement benefit is credited to the member's account along with a portion of the employer's contribution and interest. Interest is credited at a rate of 2% below the rate of return on the investment portfolio of the Plan, with a guaranteed minimum interest equal to the assumed actuarial interest of 7.5%. Member contributions cease once participation in the Deferred Option begins. At the conclusion of participation in the Deferred Option, the member will receive the balance in the member's separate account under payment terms allowed by the Deferred Option and will then begin receiving retirement benefit payments as calculated at the time of election.
- In the 2003 Legislative Session, Senate Bill 688 and House Bill 1464 created a "Back" DROP for members of the Plan. The "Back" DROP is a modified deferred option retirement plan. The "Back" DROP allows the member flexibility by not having to commit to terminate employment within 5 years. Once a member has met their normal retirement period of 20 years, the member can choose, upon retirement, to be treated as if the member had entered into the Deferred Option. A member, however, cannot receive credit to the Deferred Option account based upon any years prior to when the member reached their normal retirement date. Once a member is ready to retire, the member can make the election to participate in the "Back" DROP and can receive a Deferred Option benefit based upon up to 5 years of participation. The member's regular retirement benefit will not take into account any years of service credited to the "Back" DROP.

A member may elect to participate in the "Back" DROP even if the member has elected to participate in the Deferred Option. The member may select a "Back" DROP date which is up to 5 years prior to the termination date. Participation in the "Back" DROP cannot exceed 5 years when combined with the member's prior period of participation in the Deferred Option plan.

(3) DESCRIPTION OF THE PLAN, CONTINUED

Benefits—OPEB

The Plan contributes \$105 per month or the Medicare supplement premium, if less, toward the cost of health insurance for members receiving retirement benefits and who receive their insurance from the State of Oklahoma’s insurance plan. These benefits commence upon retirement. As of June 30, 2024 and 2023, 579 members and 584 members, respectively, had elected this benefit. House Bill 2311 allows spouses and children to elect health insurance and provides up to \$105 per month to those who do elect the insurance. The monies for the health insurance coverage are remitted monthly to the Oklahoma State and Education Employees Group Insurance Board, which administers various group health benefit plans for the State of Oklahoma. The Plan is required by statute to remit the payment, but has no administrative functions related to the payment, and no portion of the contribution amounts of either active members or state agencies is specifically identified by statute as relating to such payment. As of July 1, 2016, due to the implementation of GASB 74, the insurance premiums are considered OPEB, and a separate OPEB liability for employers will be required to be disclosed. As of June 30, 2024 and 2023, approximately \$3,832,000 and \$3,152,000, respectively, of assets have been allocated to the OPEB portion of the Plan.

House Bill 2442, which took effect July 1, 2004, allows members who are retired from the System by means of a personal and traumatic injury of a catastrophic nature and in the line of duty and any surviving spouse of a member who was killed in the line of duty to have 100% of the retired member’s or surviving spouse’s healthcare premium cost paid by the Plan.

The total amount remitted for health insurance premiums for the years ended June 30, 2024 and 2023, was \$884,027 and \$881,512, respectively.

(4) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Cash and Cash Equivalents, Continued

At June 30, 2024 and 2023, as a result of outstanding checks, the carrying amount of the Plan's cash deposits with the State of Oklahoma and a financial institution totaled \$392,984 and \$383,777, respectively, and the bank balances totaled \$743,689 and \$1,866,384, respectively. The carrying amounts of the short-term investment and cash on deposit with Northern Trust were the same as the bank balances at June 30, 2024 and 2023.

The Plan's short-term investment fund consists of collective trust funds of Northern Trust which are allocated on the basis of \$1.00 for each unit. This fund is composed of high-grade money market instruments with short maturities, generally less than 90 days, including banker's acceptances, certificates of deposit, commercial paper notes, Euro time deposits, floating rate instruments, and money market demand accounts. Each participant in the fund shares the risk of loss in the fund in proportion to their respective investment in the fund.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of a counterparty, the Plan will not be able to recover the value of its investments. Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Plan, or are held by a counterparty or the counterparty's trust department but not in the name of the Plan. While the investment policy does not specifically address custodial credit risk of deposits, it does limit the amount of cash and short-term investments to no more than 5% of each manager's portfolio. The Plan had no bank balances that were uninsured or uncollateralized of as of June 30, 2024 or 2023. The policy also provides that investment collateral be held by a third-party custodian with whom the Plan has a current custodial agreement in the Plan's name.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The investment policy limits global long/short equities to 10%, international developed equities to 20%, and emerging markets to 10% of total assets through its asset allocation policy. Investments in equity securities and corporate bonds as of June 30 are shown below by monetary unit to indicate possible foreign currency risk.

<u>Currency</u>	<u>2024</u>	<u>2023</u>

	<u>\$ 315,208,358</u>	<u>289,947,936</u>

The Plan was exposed to foreign currency risk through investments in the following commingled funds:

- Grosvenor Global Long/Short Equity Master Fund—The fund seeks to achieve superior returns that are attractive, on both an absolute and risk-adjusted basis, with substantially less volatility than the broad global equity market indices. In addition, the fund operates with the intent of preserving capital in declining market conditions. The fund pursues this strategy by investing, both long and short, predominately in equity securities in developed and emerging markets.
- K2 Ascent Long/Short Hedge Fund—The fund is structured as a hedge fund of funds and utilizes sub-managers that have been approved to join the K2 Mauna Kea platform. The K2 Mauna Kea allocation is designed to have a long-bias intended to capture more upside movements in the market.

- Mondrian Partners International Equity Fund—The fund’s investment objective is long-term total return through a value-driven approach of equity selection. The fund pursues this strategy by investing primarily in non-U.S. and emerging market equity securities.
- Barings Focused International Equity Fund—The fund seeks long-term capital growth by investing in a concentrated portfolio of equity securities from developed international markets combined with a limited number of equities from emerging markets.
- Wasatch Emerging Markets Small Capitalization Fund—The fund seeks long-term capital growth by investing primarily in equity securities of small companies located in emerging markets. Companies will generally have a market capitalization of less than \$3 billion when purchased, and holdings will generally span broadly across countries and sectors.
- William Blair Emerging Markets Leaders Fund—The fund seeks to invest in emerging markets companies with above-average returns on equity, strong balance sheets, and consistent, above-average earnings growth, resulting in a focused portfolio of leading companies. The fund will seek well-managed companies with superior business fundamentals, including global leadership in product quality or cost competitiveness.
- Loomis Sayles Multisector Full Discretion Fund—The fund seeks to find mispriced securities in the market with stable or improving credit profiles utilizing a bottom-up security selection and a top-down macroeconomic analysis to drive its investment process. The fund is oriented toward long-term value investing. Management invests aggressively, searching for under-valued securities they believe provide good opportunity for capital appreciation and current income. Typically, more than a third of the fund’s holdings are within high yield bonds and emerging market debt. The fund tends to avoid making interest rate bets but will attempt to take advantage of secular trends in interest rates. The fund will also bulk-up on out-of-favor sectors where they deem value is present. Loomis Sayles’ guiding principle is the belief that meticulous fundamental research can add value where the perception of risk overwhelms valuation. The fund allocates a sizable amount of its assets to riskier portions of the fixed-income market—below-investment grade and international—but balances this with high conviction, bottom-up security selection, and low turnover.

Credit Risk, Continued

- ⁽¹⁾ While the funds are not rated, the securities are backed by the full faith and credit of the U.S. government.
- ⁽²⁾ While the funds are commingled and not rated, the majority of the assets are held in an index fund which at June 30, 2023, maintained ratings of: AAA—73%; AA—3%; A—11%; BBB—12%; cash and cash equivalents—1%.
- ⁽³⁾ The fund is commingled and not rated. At June 30, 2023, the fund maintained ratings of: C or higher—97%; not rated and cash and cash equivalents—3%.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. While all investments are subject to market changes, securities invested in index funds are more sensitive to market risk. Although the investment policy does not specifically address the duration of fixed-income securities, the Plan does monitor interest rate risk by monitoring the performance of each investment manager.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(4) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Investments Measured at Fair Value, Continued

Fair Values of Debt Securities—The Plan holds several large diversified debt security funds. The international funds are classified as Level 3, while the domestic funds are classified as Level 2.

Fair Value of Equity Securities—The Plan holds equity securities through a number of managers, both actively and passively managed.

Domestic equity securities are classified in Level 1 and Level 2 of the fair value hierarchy, as the values are calculated daily since all securities are priced at quoted market prices in active markets for identical securities or calculated daily through the aggregation of Level 1 quoted prices for identical or similar securities.

International equity securities are priced as follows:

Barings Focused International Equity—The Plan participates in a commingled equity fund that focuses on a smaller number of equity securities located primarily in international developed markets. This investment is a commingled fund on international equity securities that are typically priced based on quoted market prices in active markets around the globe. This fund is classified in Level 2 of the fair value hierarchy, as the price of the fund is derived from securities that are all priced at quoted market prices in active markets. This fund prices and provides liquidity to its investors on a monthly basis.

Mondrian Partners International Equity Fund L.P.—The Plan participates in a fund managed by Mondrian Partners that invests primarily in non-U.S. equity securities, with a focus on the value style of investing. This fund is classified in Level 2 in the fair value hierarchy since the price of the fund is derived from securities that are all priced at quoted market prices in active markets. The fund prices and provides liquidity to its investors on a monthly basis.

Wasatch Emerging Markets Small Capitalization Fund—The Plan invests in a Wasatch fund that is focused on small-capitalization equity securities that are located in non-U.S. emerging markets. The Wasatch fund is a commingled investment trust that is managed for institutional investors. The fund is classified in Level 2 of the fair value hierarchy, as the holdings of the fund are all priced at quoted markets prices in active markets, allowing the fund sponsor to develop daily net asset value pricing and liquidity.

William Blair Emerging Markets Index Fund—The Plan invests in a William Blair fund that is focused on emerging market companies with above-average returns on equity, strong balance sheets, and consistent above-average earnings growth, resulting in a focused portfolio of leading companies. This fund will normally be invested in at least six different countries outside the United States. This fund is classified in Level 2 of the fair value hierarchy since the price of the fund is derived from the holdings in the fund which are all actively quoted in active markets. The fund prices its asset value daily and provides very short-term liquidity.

(4) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Investments Measured at Fair Value, Continued

Fair Value of Private Equity—The Plan participates in a number of private equity partnerships as a limited partner. Private equity investments are structured to be operated by a general partner, usually highly experienced in the specific focus of the fund, who calls for investments from the limited partners when a suitable investment opportunity arises. As such, investments in private equity can generally never be redeemed, but instead participate in distributions from the fund as liquidation of the underlying assets are realized.

Several of the limited partnerships invest in equity securities outside of the United States and may enter into forward contracts to purchase or sell securities at specified dates in the future at a guaranteed price in a foreign currency to protect against fluctuations in exchange rates of foreign currency. In addition, some of the partnerships may engage in hedging transactions involving derivative instruments as a part of their investment strategy.

The Plan's private equity (PE) investments have a long investment horizon of 5 to 10 years, are not liquid, and the Plan generally holds this type of investment to maturity. Depending on the type of holdings within a given partnership, the investment horizon can be extended if the general partner deems the remaining investments in the fund still hold significant future value and a majority of limited partners concur. The Plan's PE general partners typically make fair value determinations on the investments in each of their respective funds quarterly using a variety of pricing techniques including, but not limited to, observable transaction values for similar investments, third-party bids, appraisals of both properties and businesses, and public market capitalization of similar or like businesses. Each PE fund then calculates the fair value of the Plan's ownership of the partners' capital on a quarterly basis. The Plan classifies all private equity investments in Level 3 of the fair value hierarchy, as most investments of this type require unobservable inputs and other ancillary market metrics to determine fair value. Although most PE interests are marketable in a secondary market, the Plan generally does not sell its interests early at values less than its interest in the partnership. At June 30, 2024 and 2023, the Plan was invested in 27 and 26 different PE investments, respectively, and had remaining commitments of \$131,234,787 and \$152,733,275, respectively.

Long/Short Equity Hedge Fund—Grosvenor—The Plan has an investment with Grosvenor Capital Management. The investments are structured as fund of funds and utilize a number of sub-managers that invest in long and short positions of U.S. and international equity securities. The fund is valued at NAV monthly and is redeemable at the end of each calendar quarter with prior written notice.

Long/Short Hedge Fund—K2 Ascent—The Plan has an investment with K2 Mauna Kena. The investments are structured as a fund of funds and utilize a number of sub-managers that invest in long and short positions of U.S. and international equity securities. The fund is valued at NAV monthly and is redeemable at the end of each calendar quarter with prior written notice.

Core Real Estate—JP Morgan Strategic Property and USB Trumbull Property—The Plan invests in two core real property funds: the JP Morgan Strategic Property Fund and the USB Trumbull Property. Both of these funds invest in core real properties seeking to realize capital appreciation on its portfolio while also generating a high level of current income. These funds both make strategic property acquisitions primarily in the U.S. As part of the JP Morgan Strategic Property Fund's and the Trumbull Property Fund's valuation process, independent appraisers value properties on an annual basis (at a minimum). Both funds are valued at NAV monthly.

Value Added Real Estate—Starwood Property—The Plan invests in a value added real estate fund. The fund invests in opportunistic real estate. As part of the fund's valuation process, internal valuations are done quarterly, with audited year-end valuations. The fund is valued at NAV monthly.

Value Added Real Estate—Angelo Gordon—The Plan invests in a value added real estate fund. The fund invests in opportunistic real estate. Angelo Gordon focuses on repositioning, modern development, and re-leasing. The fund is valued at NAV monthly.

Value Added Real Estate—Blackstone RE Partners—The Plan invests in a value added real estate fund. The fund invests in opportunistic real estate and focuses on distressed sellers, emerging seekers, and foreign investment. The fund is valued at NAV monthly.

(4) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Securities Lending, Continued

As the Plan does not have the ability to pledge or sell noncash collateral without a borrower default, the noncash collateral the Plan had received at June 30, 2024 and 2023, was not included in the accompanying statements of fiduciary net position. According to the securities lending agreement, the borrower is required to deliver additional collateral when necessary so that the total collateral held by the agent for all loans to the borrower will at least equal the fair value plus accrued interest of all the borrowed securities loaned to the borrower. At the maturity of the loans, the Plan receives a loan premium and the securities are returned.

The Plan has no credit risk exposure to borrowers because the amount the Plan owes the borrowers exceeds the amount the borrowers owe the Plan. As of June 30, 2024 and 2023, the Plan had no losses on securities lending transactions resulting from default of a borrower or lending agent. Contracts with lending agents require them to indemnify the Plan if the borrowers fail to return the securities or otherwise fail to pay the Plan for income while the securities are on loan. The securities on loan are included in the respective investment categories in the accompanying statements of plan fiduciary net position. Cash collateral is invested in the lending agent's short-term investment pool and included as an asset in the accompanying statements of plan fiduciary net position, with an offsetting liability for the return of the collateral. The securities lending agreement states those investments of cash collateral must be structured to closely match the maturities of the underlying loans. The agreement also sets forth that a minimum of 20% of the cash collateral fund should be available each business day. The cash collateral investments had an average weighted maturity of 33 days and 39 days at June 30, 2024 and 2023, respectively.

Foreign Currency Transactions

The Plan has certain investment managers that trade on foreign exchanges. Foreign currency gains and losses are calculated at the transaction date using the current exchange rate, and assets are remeasured to U.S. dollars using the exchange rate as of each month-end. During the years ended June 30, 2024 and 2023, there were no foreign currency gains and no remeasurement losses.

(5) DERIVATIVES AND OTHER FINANCIAL INSTRUMENTS

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indices. They include futures contracts, swap contracts, options contracts, and forward foreign currency exchange. The Plan's investment policy states that derivatives may be used to reduce or eliminate undesirable portfolio risks caused by currency exposure, duration, and yield curve position. Investments in limited partnerships (alternative investments) and commingled funds may include derivatives. The Plan's investments in alternative investments are reflected at fair value, and any exposure is limited to its investment in the partnership and any unfunded commitment. Commingled funds have been reviewed to ensure they are in compliance with the Plan's investment policy. The Plan did not hold any direct derivative investments as of June 30, 2024 or 2023.

The Plan may invest in mortgage-backed securities, which are reported at fair value in the statements of fiduciary net position and are based on the cash flows from interest and principal payments by the underlying mortgages. As a result, they are sensitive to prepayments by mortgagees, which are likely in declining interest rate environments, thereby reducing the values of these securities. The Plan may invest in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. Details regarding interest rate risks for these investments are included under the interest rate risk disclosures.

(6) INVESTMENT IN BUILDING

The Plan owns a building (Colcord Center), originally purchased as an investment property for approximately \$3.4 million, and it is held as a long-term investment. The building is accounted for at fair value based on periodic appraisals and rental income and expenses reported currently. The Plan utilizes part of the building for its administrative office and pays itself rent, which is reflected as administrative expense and other investment income. The fair value of the building was estimated at approximately 4.2 million and 4.8 million at June 30, 2024 and 2023, respectively.

(7) INVESTMENT IN ALTERNATIVE INVESTMENTS, CONTINUED

Several of the limited partnerships invest in equity securities outside of the United States and may enter into forward contracts to purchase or sell securities at specified dates in the future at a guaranteed price in a foreign currency to protect against fluctuations in exchange rates of foreign currency. In addition, some of the partnerships may engage in hedging transactions involving derivative instruments as a part of their investment strategy.

(8) INVESTMENT IN REAL ESTATE FUNDS

The Plan's investments in real estate funds consist of three commingled pension trust funds. The real estate investment funds at June 30 are summarized in the following table:

<u>Investment</u>	<u>Purpose</u>	<u>Fair Value</u>	
		<u>2024</u>	<u>2023</u>
JP Morgan Bank Strategic Property Fund	The fund owns and seeks improved real estate projects with stabilized occupancies in an effort to produce a relatively high level of current income combined with moderate appreciation potential.	\$ 87,530,396	103,509,427
UBS Trumbull Property Fund	The fund is an actively managed core portfolio of equity real estate. Its primary focus is to invest in well- leased, income-producing properties within major U.S. markets. Investments are structured as wholly owned properties, joint ventures, or on occasion, as participating mortgages.	14,300,499	15,866,201
Starwood Distressed Opportunity Fund XII	The fund focuses on distressed real estate opportunities, primarily in the United States and Europe. (8) INVESTMENT IN REAL ESTATE FUNDS, CONTINUED

Each fund accounts for its investments at fair value. Fair values of real estate investments are determined by JP Morgan, UBS, Starwood Capital, Blackstone, and Angelo Gordon, respectively, at each evaluation date. As part of JP Morgan’s and Starwood Capital’s valuation process, independent appraisers value properties on an annual basis (at a minimum). UBS and Blackstone utilize independent appraisers to value the real estate investments, generally every quarter, starting the first full quarter after the investment is made. As part of Angelo Gordon’s valuation process, independent appraisers value properties for approximately one-third of the portfolio on an annual basis in order for each property to be independently appraised no less than one time during each 3-year period.

As of June 30, 2024, the Plan had remaining commitments of \$44,391,172 to fund in the real estate funds.

(9) CAPITAL ASSETS

The Plan records capital assets at cost when acquired. Maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, as follows:

Furniture and equipment	10–15 years

Actuarial Assumptions—The total pension liability was determined by an actuarial valuation as of July 1, 2024 and 2023, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation:	2.75%
Salary increases:	3.50% to 10.00%
Investment rate of return:	7.50% compounded annually, net of investment expense and including inflation
Mortality:	<p>Pre-retirement mortality rates were based on the Pub-2010 Public Safety Employees Amount-Weighted Mortality Table with rates set forward 2 years, projected generationally using Scale MP-2021.</p> <p>Post-retirement mortality rates were based on the Pub-2010 Public Safety Retirees Amount-Weighted Mortality Table with rates set forward 2 years, projected generationally using Scale MP-2021.</p> <p>Disabled mortality rates were based on the Pub-2010 Public Safety Disabled Retirees Amount-Weighted Mortality Table with rates set forward 2 years, projected generationally using Scale MP-2021.</p> <p>Survivor mortality rates were based on the Pub-2010 Public Safety Contingent Survivors Amount-Weighted Mortality Table with rates set forward 2 years, projected generationally using Scale MP-2021.</p>

Long-Term Expected Real Rate of Return—The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The inflation factor added back was 2.75% for both 2024 and 2023. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of June 30 (see discussion of the Plan’s investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>

Discount Rate—The discount rate used to measure the total pension liability was 7.50% for both 2024 and 2023. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employer agencies will be made at contractually required rates, determined by the State of Oklahoma statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 5% of the insurance premium, as established by statute, and the System will continue to receive its share of fees, taxes, and penalties from motor license agents. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate—The following presents the net pension liability (asset) of the employer agencies calculated using the discount rate of 7.50%, as well as what the Plan’s net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

Inflation:	2.75%

**(12) NET OPEB LIABILITY OF
PARTICIPATING EMPLOYER AGENCIES, CONTINUED**

Long-Term Expected Real Rate of Return—At June 30, 2024 and 2023, the OPEB portion of the Plan had allocated investments of approximately \$3,550,000 and \$2,926,000, respectively. As the assets of the OPEB portion of the Plan are maintained with the pension portion and an allocation is performed, all investment information as to rates of return and performance is the same as that presented for the pension portion.

Discount Rate—The discount rate used to measure the total OPEB liability was 7.50%. Because OPEB assets will be in the same trust as pensions, the projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employer agencies will be made at contractually required rates, determined by the State statutes. Projected cash flows also assume the State will continue contributing 5% of the insurance premium, as established by statute, and the System will continue to receive its share of fees, taxes, and penalties from motor license agents. Based on these assumptions, the OPEB portion of the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension/OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate—The following presents the net OPEB liability of the employer agencies calculated using the discount rate of 7.50%, as well as what the Plan’s net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

(13) PLAN TERMINATION

In the event the Plan terminates, the Board will distribute the net position of the Plan to provide the following benefits in the order indicated:

- a) Accumulated member contributions, defined for purposes of the plan termination section as member contributions and contributions from state agencies for the benefit of a member, will be allocated to each respective member, former member, retired member, joint annuitant, or beneficiary then receiving payments.
- b) The balance of such assets, if any, will be allocated to persons in the following groups. The amount allocated to the respective members would be the excess of their retirement income under the Plan less the actuarial equivalent of the amount allocated to them under a) above. The allocation would occur in the following order:
 - Those retired members, joint annuitants, or beneficiaries receiving payments,
 - Those members eligible to retire,
 - Those members eligible for early retirement,
 - Former members electing to receive a vested benefit, and
 - All other members.

(14) FEDERAL INCOME TAX STATUS

As an instrumentality of the State of Oklahoma, the Plan is tax-exempt. It is not subject to the Employee Retirement Income Security Act of 1974. The Plan has received a favorable determination letter from the Internal Revenue Service regarding its tax-exempt status. The Plan has been amended since receiving the determination letter. However, the Plan's management believes that the Plan is designed and is currently being operated in substantial compliance with the applicable requirements of the Internal Revenue Code.

(15) HISTORICAL INFORMATION

Historical trend information designed to provide information about the Plan's progress made in accumulating sufficient assets to pay benefits when due is presented in Exhibits I through X.

(16) LEGISLATIVE CHANGES

The following is a summary of significant plan provision changes that were enacted by the Oklahoma State Legislature during 2024 and 2023:

2024

- House Bill 2687—Commissioned or CLEET certified agents hired by the Office of the Attorney General or Military Department of the State of Oklahoma on or after July 1, 2024, were added to the System.

2023

- Senate Bill 630—Provides for tax changes made at the federal level. This bill raises the Required Minimum Distribution (RMD) age to 72 from age 70½. The bill also changes the requirement that the Plan withhold insurance premium taxes from the members benefit to qualify for the federal \$3,000 exclusion. The member can now make the payment directly to their insurance provider and still qualify for the \$3,000 annual exclusion from income.

(17) CONTINGENCIES

Legal

The Plan is involved in legal proceedings in the normal course of operations, none of which, in the opinion of management, will have a material effect on the net position or the changes in net position of the Plan.

See Independent Auditors' Report.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees of the
Oklahoma Law Enforcement Retirement System

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Oklahoma Law Enforcement Retirement Plan (the "Plan"), administered by the Oklahoma Law Enforcement Retirement System, which is a part of the State of Oklahoma financial reporting entity, which comprise the statements of fiduciary net position (pensions and OPEB) as of June 30, 2024, and the related statements of changes in fiduciary net position (pensions and OPEB) for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 16, 2024. Our report includes an explanatory paragraph disclaiming an opinion on required supplementary information.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Plan's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Plan's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
